The 10000 Line

DIGNIFIED in design, elegant in finish and colorful in effect. Crystal lighting has been favored for many generations. The Crystal Cut frosted chimneys add much to the charm of these fixtures and make them especially adapted to decoration of the late 18th Century, so much in vogue at this time. A wise choice for homes in which a gracious spirit is sought.

THE 9200 LINE

MODERNE

A MARKEL creation offering the newest in the modern mode of lighting fixtures. Note the unique construction of the Ivory-tint glass shades which are made in one piece to form the side as well as the bottom of the fixture. This arrangement allows for both direct and indirect illumination which blends so harmoniously with the present day trend in modern furnishings.

Metal parts are in Cast Aluminum finished in Nuchrome with contrasting Hylites buffed and polished.

This design of the modern type is recommended especially for the better homes, also may be used to advantage in Clubs, Shoppes and Display rooms where the effect of the Modern Home Environment is desired.

THE 9100 LINE

NEO CLASSIC

THIS beautiful new series of Lighting fixtures, by Markel, is a distinguished contribution to the revival of classical motifs in decoration. Equally at home with our Modern and Colonial styles as well as with other English and French periods. Cast and spun metal parts are finished in Oxidized Cadmium with trimmings in Gold. The large ball and the bracket backs are treated with a deep blue transparent color which makes a most appropriate field for the Gold stars. The glass shades of Champagne color have been treated in a new and unique manner to give diffused illumination and decorative, comfortable lighting.

The 4100 Line

A MARKEL Line of unusual beauty. Note the massive, well rounded effect of the drop fixtures—gracefully proportioned in every line, beautiful in every detail of designing. Cast in Ferro Metal, finished in Del Rio—a blending of shaded gold into the rich browns of the basic coloring, hylited in color and equipped with Champagne Glass. Several numbers are also furnished in Ivory Poly with Rose Glass.

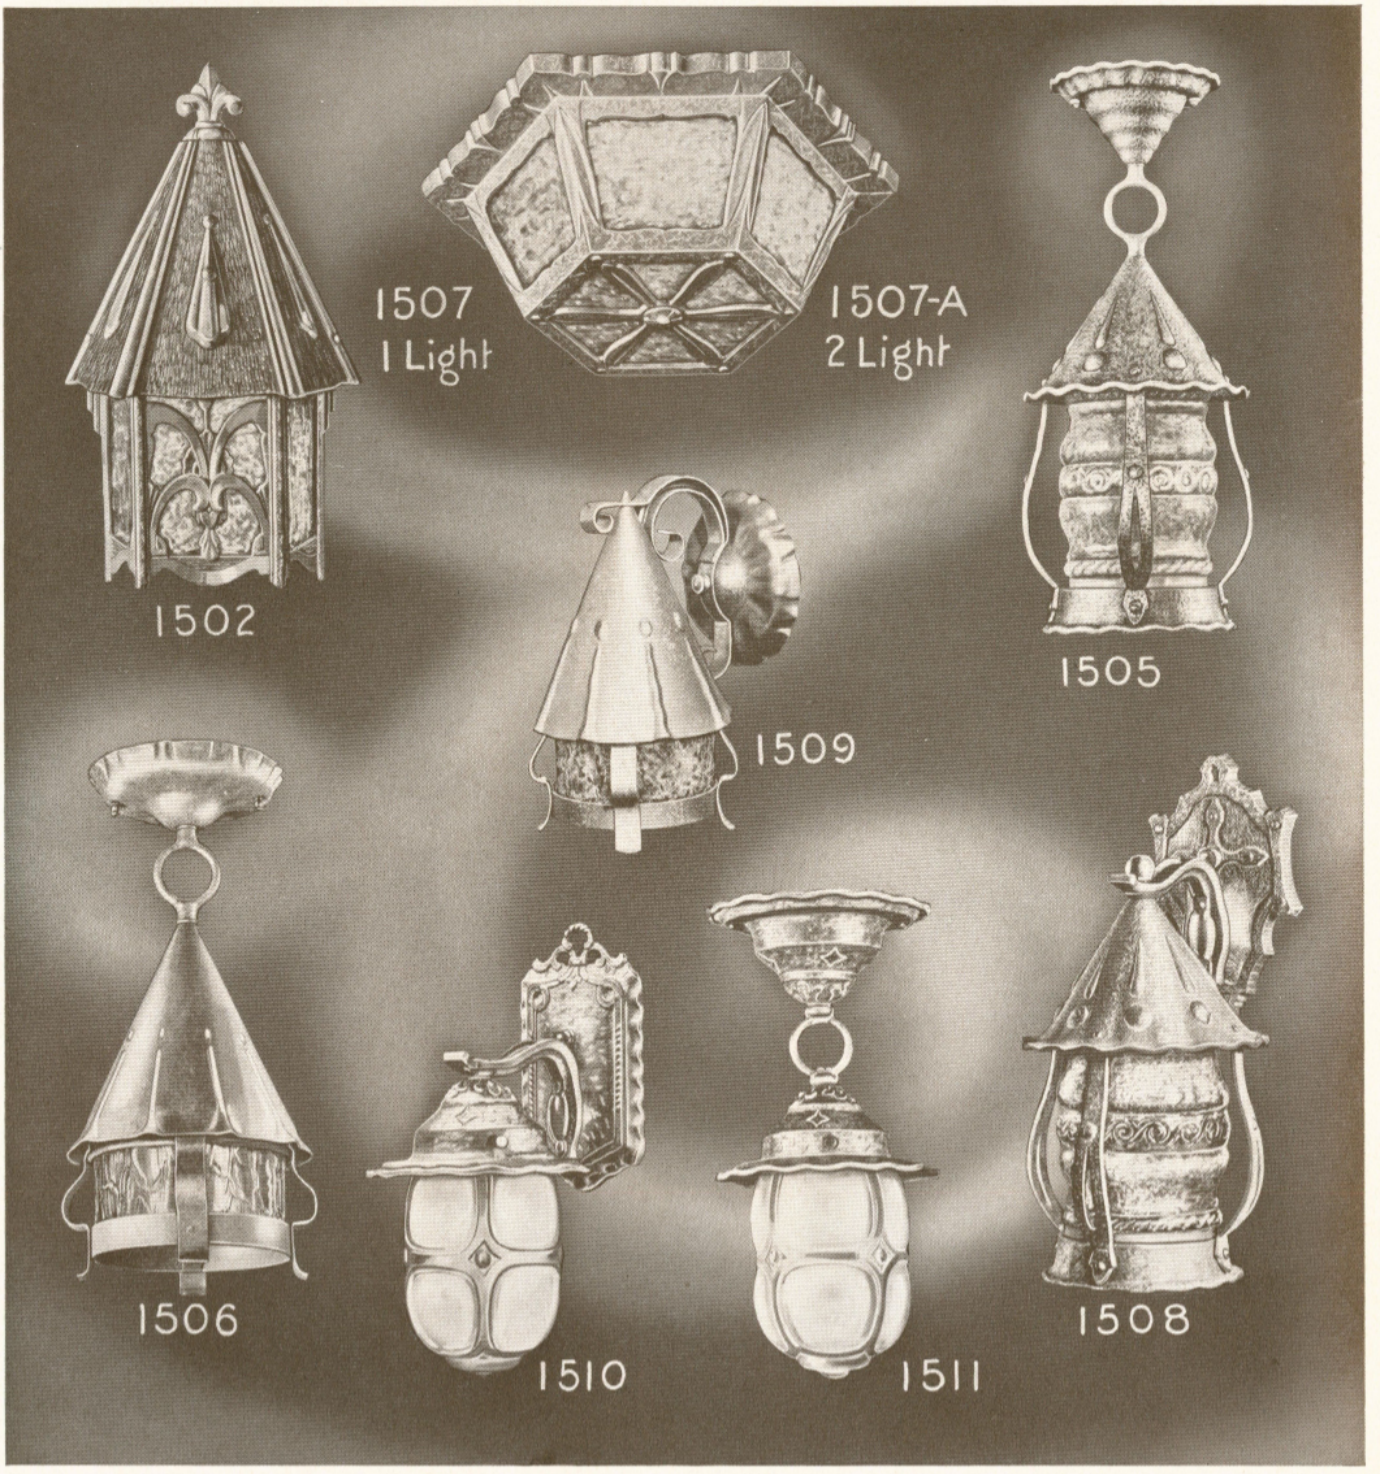
MARKEL OUTDOOR LANTERNS

Well Made, Weather Proof Metals in Latest Finish and Design



THIS page illustrates an assortment of our Outdoor Lanterns. Its wide variety of designs conforms practically with all styles of architecture. Numbers 1501, 1502, 1503, 1505, 1507 and 1508 are made of Cast Aluminum. Numbers 1504, 1506, 1509 are Weather-Proofed Sheet Metal. Numbers 1510, 1511, 1512 are of Weather-Proofed Cast Ferro Metal. All types have Crackled Amber Glass, excepting numbers 1510, 1511 and 1512 which are furnished with Pearl Iridescent Globes.

All lanterns are wired with Keyless Receptacles. Packed one in carton and five in standard quantity.

See reverse side for complete specifications.

All numbers in this line fully protected by design patents issued or pending in the United States of America and the Dominion of Canada.

RESIDENTIAL LUMINAIRES

BETTER LIGHT FOR BETTER SIGHT

DESIGNED to conform to the principles of I. E. S. Better Light—Better Sight Lamps, to solve the problem of providing decorative light for those many places that are so difficult to adequately and scientifically illuminate.

Markel Residential Luminaires possess every desirable feature for eye comfort, sight protection; proper light distribution; elimination of glare and general room illumination.

Especially for

DINING ROOMS

DINETTES

NURSERIES

BEDROOMS

LIBRARIES

HALLS — STUDIES

MARKEL Residential Luminaires are finished in French Bronze or Empire White and Gold to harmonize with any type of furnishing. Equipped with a choice of Silk pleated, Parchment, Rayon covered or Metal Shades. The efficient glass diffusing bowls provide maximum light output. Note wall sconce which is very decorative as well as efficient. A unit which will meet the needs of the entire family.

MARKEL LUMA BRACKETS

For Utilizing the Modern Decorative Possibilities of the New Lumiline Lamps

Markel Luma Brackets have greatly increased the lighting and decorative possibilities of Lumiline lamps. They are particularly effective in giving a modern accent to the lighting of mirrors in halls, bathrooms and bedrooms, also in illuminating difficult corners and wall expanses. Provide soft, diffused light for shelving, mantels and pictures. Equally adapted to homes, stores, show rooms — wherever decoration as well as modern illumination is desired.

NO.	BULB LENGTH	OVERALL SIZE	FINISH	CODE	STD. QTY.	PRICE

CONSTRUCTIONAL DETAILS

Reflector—Made of heavy gauge aluminum.

Socket—Rigidly fastened to prevent twisting.

Swivel—Hangers equipped with swivel joints to assure straightness in hanging.

Canopy—Sufficiently large to cover outlet boxes. Designed to harmonize with reflectors.

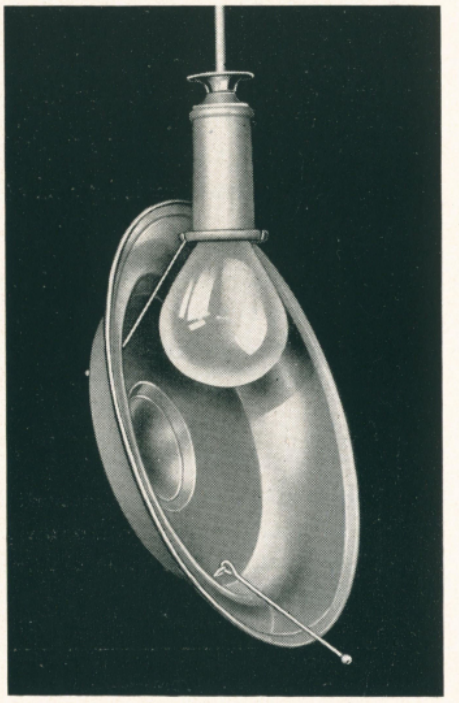
Screw Collar—Permits canopy to rest flush with the ceiling.

Reflecting Surface—Special hardening treatment insures permanent high light output.

Finish—Beautifully finished in a durable heat proof lacquer.

Glassware—Semi-Indirect Units are equipped ~~with ivory tinted glass~~. with white opal glass.

Lamp—Position in reflector gives maximum light output.



CLEANING... RELAMPING

To insure easy maintenance the unit is constructed so that by releasing only one of the rod supports the reflector is tilted—yet firmly secured. This permits cleaning or relamping with the least possible effort.

ELEMENTS

CIRCULATES HEAT TO ALL CORNERS

SPECIFICATIONS AND PRICES

No.	Volts	Watts	Finish	Code	Price
130	115	1250	Burnt Brass	Idiom	$13.95
131	115	1500	Burnt Brass	Idler	13.95

Elements for replacement $1.50 each list. Specify upper or lower element when ordering replacements.

Size: 18" High, 12" Wide, 10" Deep.

Shipping Weight: 17 lbs.

Capacity: 45 cubic feet of air per minute.

Fan Motors: Induction type for 50-60 cycle A.C. current.

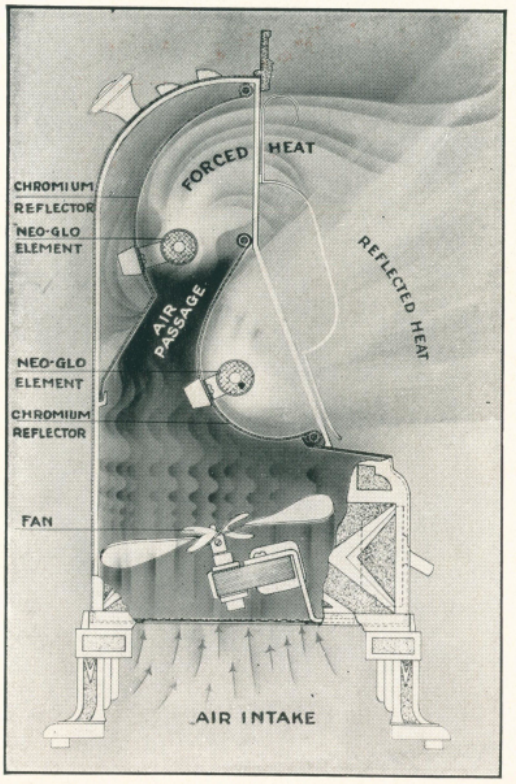
Equipped: Three control switches.

Wired: Eight feet of cord and plug.

Packed: One in a carton. Five to standard quantity.

Guaranteed: Each Markel Heetaire is guaranteed to be free from defective material and workmanship for one year.

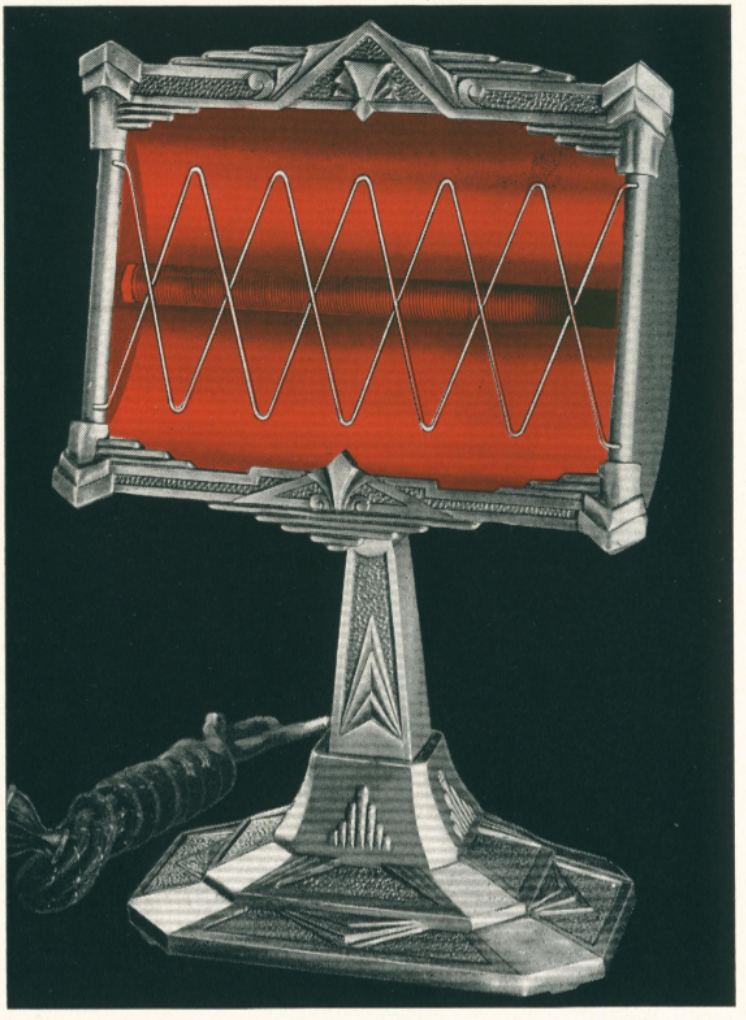
● A beautiful Heetaire of medium size, designed in a modified modern manner to harmonize in any surrounding. A fast heating heater which quickly brings comfort to any room. Its efficient fan forces the heat far out into the room. Its glowing Neo-Glo Element adds a cheerful color note. Fast heating, clean, odorless.



Forced Heat + Direct Heat
you get
DOUBLE EFFICIENCY
IN MARKEL HEETAIRES

● One element for flooding the heat direct from the fan to all parts of the room. Another element for reflecting the heat directly in front of the heater—a new idea, a new principle that produces double efficiency in electric heating! . . . Notice in the cross section how the fan picks up the cool air from the floor and forces it over the Neo-Glo element and floods it far out into the room. Notice also how the lower element reflects the heat directly in front of it. Only Markel Heetaires give you the advantages of the dual construction —this double heating efficiency. . . . One switch controls the fan only and may be switched on for producing gentle breezes in the summer; the upper heating element is operated by its own switch and the lower element is switched on and off independently. Thus both elements and fan can be operated together when quick heating results are desired—or either element switches off when desired temperature is attained to reduce wattage consumed.

SEE OPPOSITE SIDE OF THIS FOLDER FOR COMPLETE DESCRIPTION OF NEO-GLO ELEMENT



No. 82

MARKEL
PORTABLE
HEETAIRE
with
NEO-GLO
ELEMENTS

● Markel Portable Heetaires deliver a surprising volume of heat that will penetrate far out into the room. A swivel hinge makes it possible to direct this heat wherever wanted. Chromium plated reflector is 4″ deep with the element placed in the exact position to reflect heat rays with the greatest efficiency. This reflector has a double housing with louvers to provide for convection heating. Cast base is sufficiently heavy to avoid danger of tipping. A guard protects the front surface of the Heetaire. Equipped with Markel Neo-Glo element—the larger, stronger, hotter element having more inches of heating surface.

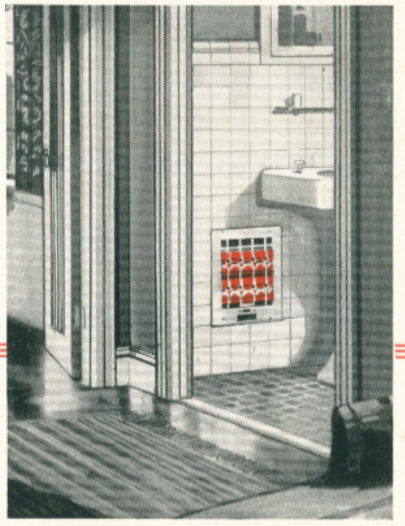
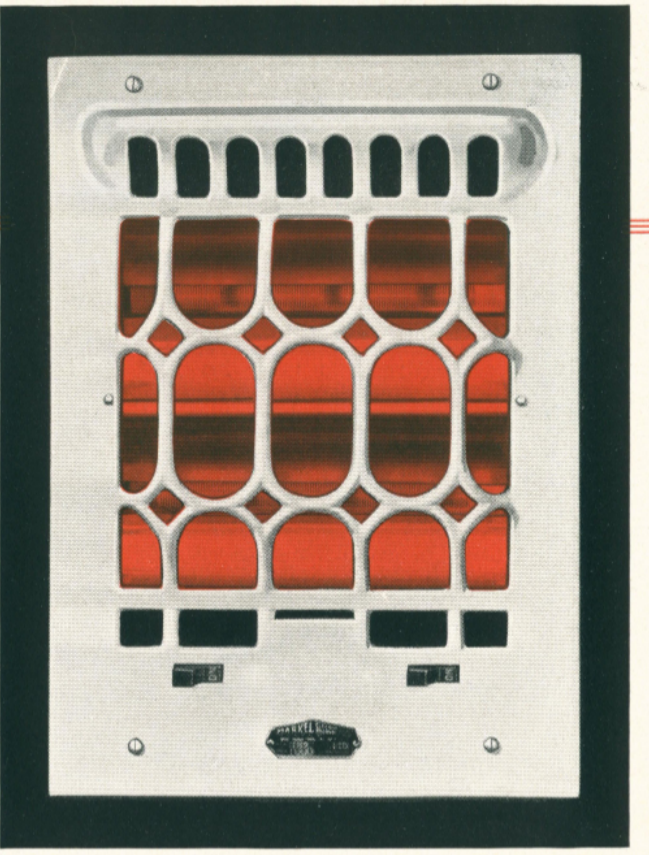
MARKEL HEETAIRES

BUILT-IN WALL TYPE

NEO-GLO

ELEMENTS





NEW MARKEL HEETAIRE NO. 182

Double Element

● Two separate elements, 500 watts each with individual switch control. Beautifully designed and finished. Tested and approved by Underwriters' Laboratories of the National Board of Fire Underwriters.

● Markel Neo-Glo Heetaires, inset wall type, provide the comfort and convenience of electric heat as an integral part of the home. Built into the wall—they are out of the way—ready to deliver volumes of heat at the click of a switch. Markel built-in Heetaires are a permanent addition to the home. The modern solution of auxiliary heating problems. Efficient, economical, practical for old homes or new. They increase the value of the property far beyond their cost. They provide that touch of modern convenience that stamps the home as especially desirable—either to live in, to rent or sell. Being electric, there are no fumes, dirt or dust to soil the walls or create unhealthful odors. They are today the most advanced note in auxiliary heating equipment.

MARKEL HEETAIRES ARE EASY TO INSTALL IN NEW WALLS OR OLD

Markel Heetaires can be readily installed by any electrician, either in a new or an old building.

The operations are the same as when installing a convenience outlet.

Heetaire grills overlap sufficiently so that rough edges of openings do not show.

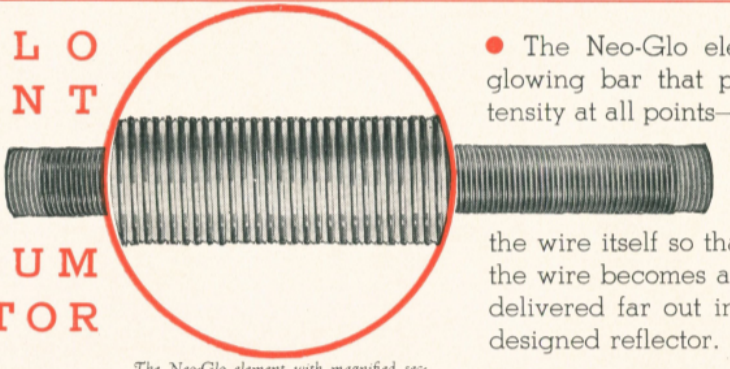
NEO-GLO ELEMENT & CHROMIUM REFLECTOR



The Neo-Glo element with magnified section to show deeply imbedded wire into tube and the accurate spacing between wires.

● The Neo-Glo element in Markel Heetaires is a glowing bar that produces its heat with equal intensity at all points—from one end to the other. There are no hot spots—no cold spots. The tube of refractory material attains the same heat intensity as the wire itself so that the entire element and not just the wire becomes a bar of solid, glowing heat that is delivered far out into the room by the scientifically designed reflector.

"Neo-Glo" Element Patented U. S. Pat. Office No. 1952426.
Trade Marks, "Neo-Glo" and "Heetaire." Reg. U. S. Pat. Office No. 282410 and No. 242028.
